

Shawn Cheney new Business Line Manager – Dynapac RCE in the US

Shawn Cheney has been appointed to the position of Business Line Manager for Dynapac RCE in the US. The effective date of his assignment was June 30, 2010.

Shawn comes from Volvo (IR) where he has held various management positions for the past 13 years, with distributor development as well as with company owned stores. In that capacity he has worked extensively with road development products. He has a proven track record of delivering results, and has been awarded a number of honors and recognitions during that time.

“Shawn’s experience with distributors as well as store channel sales, along with his strong result driven approach, and his open and empowering management style, makes him uniquely suited to fine-tune and execute our Road Construction business development plans, and lead the Dynapac business back to a prominent and profitable market position,” said Torbjorn Redaelli, President and General Manager, Atlas Copco CMT USA LLC. *“Please join me in welcoming Shawn to Atlas Copco CMT USA and the Dynapac business, and wishing him all the best success with this assignment.”*

Shawn will be located in Commerce City, Colorado.
